Full-Stack Software Engineer with 2+ years of experience building scalable SaaS platforms, real-time applications, and production-ready software. Experienced with TypeScript, React, Next.js, Node.js, Python, PostgreSQL, Redis, and cloud infrastructure. Skilled in end-to-end product development, multi-tenant architectures, workflow automation, and delivering software in fast-moving startup environments.

EXPERIENCE

Software Engineer

Sept 2025 – Present

Weroast.design, Remote

- Develop scalable SaaS products and automation platforms for startups and founders.
- Build production-ready web applications with an emphasis on performance, usability, and maintainability.
- Translate business requirements into software solutions that streamline workflows and support product growth.

Software Engineer

March 2025 – Sept 2025

Dubizzle Group, Lahore, Pakistan

- Improved listing workflows and inventory load performance, contributing to faster inventory
- Modernized frontend architecture by refactoring reusable React components, improving scalability and maintainability.
- Participated in Agile sprint planning, backlog grooming, and cross-functional discussions to align technical implementation with business goals.

Full Stack Developer

June 2024 – March 2025

NHZ Global, Lahore, Pakistan

- Collaborated with stakeholders to deliver production-ready features that improved user engagement and operational efficiency.
- Built scalable CRMs platforms with real-time features and optimized workflows.

PRODUCTS

Synq — Real-Time Team Collaboration SaaS

Next.js 15, React 19, TypeScript, Node.js, Express, Socket.io, PostgreSQL, Redis, WebRTC, Docker

- Built an all-in-one collaboration platform integrating real-time messaging, WebRTC video meetings, Kanban boards, calendars, and notifications.
- Developed a scalable TypeScript monorepo using Next.js, React, Node.js, Socket.io, PostgreSQL, and Redis for real-time synchronization.
- Implemented role-based access control (RBAC), secure authentication, workflow automation, and cloud deployment with Docker and CI/CD.

EDUCATION

Master of Computer Science (M.S.) – CN & IO

2025 – Present

Conservatoire National des Arts et Métiers, Paris, France

Bachelor of Science (B.S.) – Computer Science

2020 – 2024

COMSATS University Islamabad, Lahore Pakistan

SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES6+), Python

Backend Development: Node.js, Express.js, FastAPI, WebSockets, Elasticsearch

Cloud & DevOps: AWS (EC2, S3), Docker, Kubernetes, CI/CD Pipelines, GitHub Actions

Databases & Caching: PostgreSQL, MongoDB, Redis, MySQL

Frontend Development: React.js, Next.js, Tailwind CSS, Responsive UI Development, State Management

Tools & Technologies: Git, Linux, Postman, Redis, Nginx, WebSockets, Cron Jobs
